

VERSATIP

The next generation instruments in Hysteroscopy

The new and versatile solution for office and surgical Hysteroscopy. VERSATIP combines all the surgeon's needs with the requirements for appropriate cleaning in the CSSD.

- ▶ Detachable – one handle for all inserts
- ▶ Color code – the easy identification of the tip
- ▶ Two handles – self holding and standard
- ▶ The easy connection – the reliable ball tip technique
- ▶ Light weight handle – the perfect fit for your fingers
- ▶ Make cleaning easy – flushing port for the complete instrument
- ▶ 360° rotation - just with your finger tip
- ▶ All parts can be ordered separately
